

Features of Custom Quiz Timer for LearnPress

Key Features

- Custom Timer Duration: Set per-quiz timer in minutes via admin meta box (side panel in quiz editor). Example: 5 minutes for a quick vocabulary test.
- Frontend Countdown Display: Visual timer box (gray with red countdown) appears above questions, showing "Time Remaining MM:SS".
- Auto-Submission on Timeout: When timer hits 00:00, the quiz automatically submits to prevent delays.
- Anti-Cheat Detection: Detects tab switches, shows an alert ("Cheating detected"), and auto-submits. Logs cheats for optional retry limits.
- Compatibility: Works with LearnPress core; tested on mobile/desktop.

Beginner Spanish Vocabulary Quiz

04:47 Time Remaining

Question 1 of 2

⌚ 00:13

FINISH QUIZ

1. What is the Spanish word for "hello"? ⓘ

☐ Adiós

☐ Hola

☐ Gracias

☐ Por favor

Use Cases

- Language learning: Timed quizzes for vocabulary recall (e.g., "Beginner Spanish Vocabulary Quiz").
- Vocational skills: Anti-cheat for certification tests (e.g., safety protocols).
